More fun stuff...

Outside of his career, Corey spends his time pursuing a multitude of hobbies, including songwriting, singing, writing comedy, slaying ninjas, velociraptor teasing, shark riding, polar bear boxing, and defeating aliens with wild electric guitar solos. Corey is also available for birthday parties and Bar Mitzvahs by request. Rest assured that none of these mind-blowing hobbies will interfere with his ability to bring "The Awesome" when it comes to your unquestionably important projects. Your project will always take priority over saving the world, no matter how big or menacing those giant killer robots may be. Corey Smith is, above all else, a dedicated employee.

**Corey is not actually delusional.

He wrote all this stuff on the off-chance that you'll hire him because he's hilarious AND talented.
